[Com. AYER'S AGUE CURE

FOR THE SPEEDY CURE OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, and Billous Fevers, indeed for the whole class of diseases originating in billary derangement, caused by the Malaria of miasmatic countries. No one remedy is louder called for by the necessities of he American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect

certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of FEVER AND AGUE from the system and prevents the develop ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever vet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in bilious districts, where FEVER AND AGUE prevails, everybody should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all-the poor as Monasses, # gal.on. well ass the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinine or other injurious effects whateve upon the constitution. Those cured by it are left as healthy as if they had never had the disease. Fever and Ague is not alone the consequence of the miasmatic poison. A great varity of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, cur.ed .-

Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures rious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords. AYER'S CATHARTIC PILLS, FOR ALL THE PURPOSES OF A FAMILY PHYSIC from Montgomery, affirming the judgment. In Doe ex grateful testimony of those who have used it and been cured, are so composed that disease within the range of their ac

tion can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of thes properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting. Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases.— The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Cosliveness, Heartburn, Headache arising from disordered Stom ach, Nausea, Indigestion, Pain in and Morbid Inaction of 250 CENT AMBROTYPES at the fine Reception the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions. They are an excellent alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by

disease. AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF Coughs, Coids, Influenza, Hoarseness, Croup, Bron-

the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing thrus' upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
